About TomaxUSA

Tomax is a privately owned business based in Los Angeles, California, with roots in the promotional products industry going back to 1982. Officially founded in 1990, we bring over 35 years of expertise to the table, earning a reputation for offering safe, high-quality products at competitive prices.

We specialize in mobile accessories, including power banks, Bluetooth devices, adapters, cables, smart home products, and more. Innovation has always been at the heart of what we do. In fact, we were the first company to introduce *e*-sample — what is now widely known as virtual samples. We also led the way in bringing power banks to the promotional products industry, long before they became a staple. Staying ahead of the game has always been a part of who we are.

What sets Tomax apart is our direct relationship with primary factories that also supply the retail market. This unique advantage allows us to deliver promotional products with the same reliability, quality, and safety as top retail brands—all while maintaining competitive pricing.

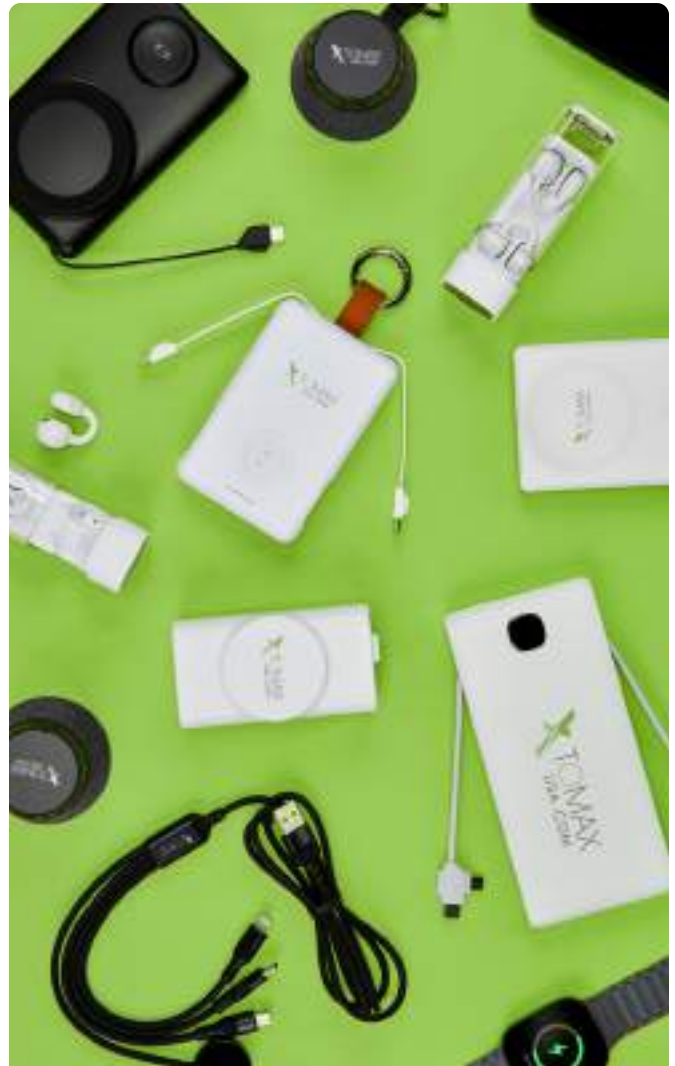

When you partner with Tomax, you're choosing a company that consistently delivers the best for you and your clients. We pride ourselves on being the trusted supplier you can count on time and again.

Whether it's through our commitment to innovation, our focus on quality, or simply making your life a little easier, we're here to support your success. At Tomax, it's not just about products—it's about building relationships you can rely on.

Thank you for letting us be part of your success story.

UL Certified 

VS

UL Recognized 

PC1161UL & PC1001UL (see on the next page) are two Tomax power banks that have UL certification. The entire unit, from the smallest wires to the casing, all pass vigorous and expensive testing to ensure they are to the highest standard; the gold standard of safety.

The rest of our power banks' batteries are UL recognized, which means only the most important component of the power bank: the Lithium-ion Polymer have UL certification.

This approach lets us deliver quality, keep up with trends, and maintain fantastic pricing

Wireless Charging

Many of Tomax's wireless chargers utilize Qi technology. Qi charging is a universal wireless charging standard compatible with many modern smartphones.

MagSafe on the other hand, is an Apple Inc. proprietary charging method featuring a built-in magnetic alignment and attachment system. All Tomax's MagSafe products include a magnetic ring, allowing Android users to customize their phone cases for MagSafe compatibility.

Why Wheat Straw Plastic?

Wheat straw plastic is a composite material made by blending wheat straw fibers with conventional plastics or biodegradable polymers. It serves as an eco-friendly alternative to traditional plastic by utilizing agricultural waste.

IPX Rating Explained

The IPX rating explains how water resistant a product is. Here's a simple chart to explain what each rating means. Most of Tomax water resistant products are well protected for poolside relaxation.

Source: https://www.tansun.com/gb_en/technical/technical-ip-rating.html

Level	Protected Against	Level	Protected Against
IPX1	Dripping water	IPX5	Water jets
IPX2	Dripping water when tilted up to 15°	IPX6	Powerful water jets
IPX3	Spraying water	IPX7	Immersion up to 1m
IPX4	Splashing water	IPX8	Immersion beyond 1m

Screen Imprint

Similar to spot Printing and pad printing. Each color is applied separately. Good for solid, or 1-to-2 color logos. Marked by S.

Laser Engraving

Using laser to physically chisel very fine layer into products for long lasting logos. Our products with light-up logo functionality uses laser engraving to carve out the illuminating part. Marked by L.

Full Color Process

A four-color process printing that can print vibrant multi-color logos with ease. Perfect for images or logos with gradients. Marked by F.

Heat Transfer

Direct-to-film (DTF) printing uses heat to transfer designs from specialized film onto fabrics. Our fabric tech organizer is decorated via heat transfer. Marked by H.

Full Bleed

Capable of printing multi-color designs from edge-to-edge, taking advantage of the full unit as a canvas. Perfect for a bold and professional finish. Marked by B.
